## CDC

---

### **Customer Background:**

The CDC is one of the major operating components of the Department of Health and Human Services. CDC's Mission is to collaborate with and create the expertise, information, and tools that people and communities need to protect their health – through health promotion, prevention of disease, injury and disability, and preparedness for new health threats.

### **Customer Requirement:**

CDC wanted to accomplish its mission by working with partners throughout the nation and the world to:

- monitor health & detect and investigate health problems
- conduct research to enhance prevention & develop and advocate sound public health policies
- implement prevention strategies & promote healthy behaviors
- foster safe and healthy environments
- provide leadership and training

### **The NVR solution:**

The NVR Functional Consultant, who had previously provided SAP services to the client, implemented the following solutions:

- Procurement system (SAP-Procurement)
- Inventory systems (SAP-IM) to track and transfer vaccines
- Contract management system to establish global contracts with suppliers
- Designed and developed the Vaccine Order entry system for Vaccine providers through SAP-CRM solution

### **Business Benefits:**

CDC decided to implement SAP Solution for better control on vaccines management systems and vaccines supply to US citizens. This was extremely beneficial as it:

- Was an easy vaccine provider management
- Was an efficient vaccine order entry system
- Facilitated better spend analysis on government funding
- Improved visibility to spares order shipments and order fulfillment
- Standardization of business processes
- Scalable Platform and reduction in IT cost

**Technologies:** SAP NetWeaver environment with SAP ECC (MM&FM), SAP-CRM (Sales, Marketing, Trade Promotion Management), SAP-BI, XI, EDI & Portals
